Dear Miss,

I was much surprised and delighted when the post brought me yesterday your magnifique portraits, for which I beg to tender you herewith my best thanks. It will always be a dear souvenir to me. - I have also still to acknowledge receipt of your very kind letter of November 25th and I can only regret my inability to express in English my feelings of gratitude for all your kindness.

I attended your *matinée* in "Diligentia" at The Hague on the second

day of Xmas and enjoyed
it immensely, especially
the Chaconne of Bach.
It was simply sublime!

I am very happy that
you experience so much
evidence of deep appreciation
for your genius all over
the country and beg to
remain, with compliments,

Yours most respectfully,

A. Kerman
